

# WORKSHOP SOLUTIONS

## Equipment Storage and Inventory Control System

### Organize your Shop to Enhance Efficiency and Productivity

Car-O-Liner's WorkShop Solutions provides organized inventory control solutions such as tool boards, wall sections and separators that allow you to configure unique work bay designs to meet your collision repair workshop's space requirements. Wagons/trolleys on wheels can easily be moved to where they are most needed, thus increasing efficiency and cycle times.

With WorkShop Solutions you can increase your profitability by ensuring that your workshop is well organized and planned. Parts silhouettes on the tool boards insure that repairs can be completed more quickly and efficiently as tools and equipment are always in their correct places, no need for the technician to waste time finding what is needed to complete the job.

### Increased customer confidence boosts your bottom line

The internal and external environment of a collision repair workshop plays an important role in the overall quality of the customer experience. It is here that your customers form their image of your workshop and your brand. Just as it is here that each employee's sense of belonging, pride and personal responsibility is created. The combination of environment and employees that exude competence and security offers such a professional impression to both customers and insurance companies alike.

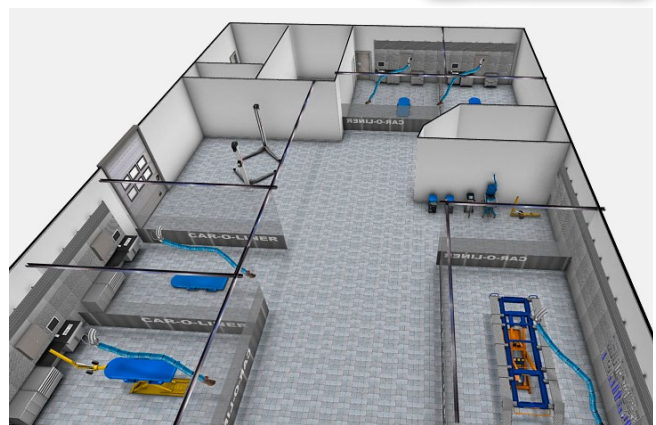

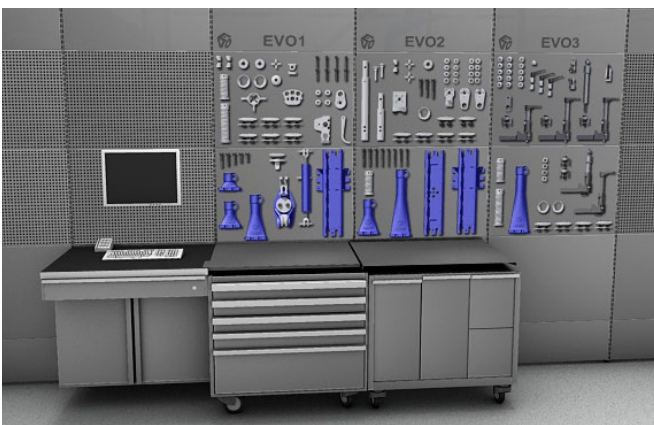

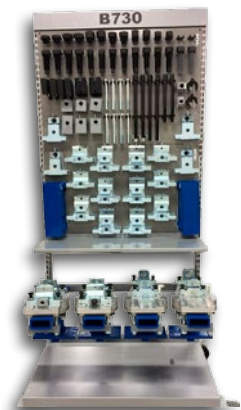

- **Inventory control** — Parts silhouettes ensure tools are returned to the proper location
- **Ergonomic** — Technicians can find tools and complete repairs faster
- **Attractive** — An organised workshop increases customer confidence
- **Quality** — Sturdy construction to hold multiple parts gives a long life cycles with low maintenance costs
- **Space saving** — Maximize use of wall or wagon space
- **Flexibility** — Product design range to match multiple global car manufacturer's parts designs
- **LEAN** — Apply LEAN production practices

# Assemble to Meet your Space Requirements

## Flexible

- Wall sections that allow you to configure the workshop as you desire.
- Even more flexibility with free standing, lower middle walls.
- Tool boards with silhouettes help you to organize your tools.
- Easy to attach/detach and move the wall panels and shelves from walls to tool wagons.
- Wagons/trolleys on wheels can easily be moved to where they are most needed.
- Shelves in various widths and lengths.
- Large selection of hooks and holders.

Ask your distributor how you can maximize your shop layout with our Ecdesign planning tool!
